# Lead

- Engage young professionals
- Increase confidence, social, and business skills
- Create connections to community and each other

Growth continues to explode along the Emerald Coast. Young professionals, ready to shoulder the challenges and responsibilities that come with this growth, are enthusiastic about the future. Recognizing certain skills needed to be a good leader are not always gained through school or in a typical business environment, Emerald Coast Emerging Leaders (ECEL) wants to help those future leaders prepare to meet the upcoming challenges. Through a mixture of educational and social venues, this dynamic organization encourages personal and professional development, confidence building, and connections to the community and to each other. All young professionals pursuing leadership positions within the community or their businesses or simply seeking personal growth are encouraged to get involved!

**Creating future community and business leaders by cultivating and fostering leadership potential.**

Emerald Coast Emerging Leaders (ECEL) is creating the professional development group of choice, targeting professionals ages 21 to 41.

# Learn
